

Attention Patients!

In the event it is decided that you are a candidate for medications for weight loss please note that we do not have control over your insurance requirements. Every plan is different; at the time it is decided to initiate you on a medication for weight loss our practice will submit your relevant medical information to your insurance company; if it is denied we are unable to file an appeal unless it is an extenuating circumstance. The clinical team will review all denials and assess on a case-by-case basis to determine if an appeal is warranted.

In the event you cannot get your medication through your prescription insurance we do support self-pay options through the drug manufacturers directly. **We cannot continue to see if you choose to purchase compounded products online.** If self-pay for medications is not an option, then continuing to see the Nurse Practitioner would not be appropriate. If you wish to continue to see the Registered Dietitian or Behavioral Health Consultant, you may continue to do so.

Self Pay Options:
